

School Closure Digital Learning Instructions for WORLD AREA STUDIES

45 minutes to 1½ hours per day

This digital learning experience is a collection of online lessons and assessments via Active Classroom. Quizizz will also be used for grading purposes after the lesson and practice. This is how new content will be introduced, discussed and assessed.

Our online platforms will be:

- Verge and the Active Classroom site.
- Office 365 Teams for group discussions about the assignments.
- Office 365 Forms for progress check deadlines (unless the DCSD requires that we use Verge).
- Quizizz for assessments

Do:

- Meet deadlines.
- Copy and paste all question response from Active Classroom to Forms for a progress check by each due date. As you know Active Classroom will not show me your work until all assignments are complete.
- Check off your work from the daily assignment list on both Verge and the Active Classroom site (they will both give the same information though Active Classroom will provide more specific information).

Do NOT:

- Allow the work to pile up.
- Miss due dates.
